I came to Chautauqua after attending Big Bear High School Independent Study for my first year of high school. When I came here I was behind on credits because of unfinished work. Chautauqua gave me a more structured environment which helped me to complete my work.

Since coming here, my work has greatly improved and I have learned a lot both academically and on a social level. I have grown and matured as a person and have learned much more than books alone could teach me.

The person I should thank the most is my teacher, Mike Kompaniez, who has taught me more about life than anyone. He is not only a teacher, he is also someone I can talk to about personal problems, and trust to give me good advice.

After graduation, I plan to attend a flight attendant training school in Ontario. I also plan to learn a second language (Spanish, Italian, or both) so I will be able to fly to more than simply English speaking countries.

I have enjoyed my high school years at Chautauqua, and I will miss coming to school here. Congratulations to the graduating class of 2000, and thank you to all the students and staff who made my time at Chautauqua most enjoyable.
