

I have attended Chautauqua High School for about a year and a half, and by far this is the best school I've been to academic wise. I was behind almost two full years of credits when I showed up to Chautauqua High School at the beginning of my senior year. I had little hope and no motivation to even try to finish school. Well needless to say my teacher Mrs. Julie fixed all of that with a little attitude adjustment on my half. Julie always stayed on top of me to make sure I was doing everything that I needed to get done; she also pushed me to do harder work and to not always take the easy way out of everything. Well I can proudly say that her nagging helped a lot. She made me feel like an actual student and gave me the individual attention and help that I needed. Without her I probably never would've graduated.
