I have attended Chautauqua High School for about three and a half years. During that time I have been through some of the roughest times of my life. Chautauqua has been very understanding and has worked with me so I could graduate. If it wasn't for my amazingly intelligent, easy-going teacher, Doug Lane, I probably would not have been so anxious to continue my education. I also have to give a special thanks to Steve Schour for being such a sport and giving me so many chances. My experience at Chautauqua has been a good one. It was weird, yet exciting at the same time. To me Chautauqua is like a second home. You can always be yourself here and without people judging you. Chautauqua has helped me become a mature, young adult and I will miss everyone very much. CHAUTAUQUA HIGH ROCKS!!!
