

David Forthun

Diploma Check List

12-15-98

I have been a student at Chautauqua High School for three and a half years. I would have to say that CT has been the best experience throughout all the years I have spent going to school. The Office ladies (Caryn, Cass, and Cherie) have always been helpful and nice. My teacher, Sabra, is the best teacher that I've ever had. I have learned more about religion, other countries, people, and our government. I have learned the value of school and am thankful that I am graduating a semester early. I've learned more about computers which enabled me to decide what kind of career I want after graduation. My principal, Steve Schour, is a friend that students can talk to without feeling intimidated. Even though I'm glad I'm leaving I will miss Sabra, Caryn, Cass, Cherie, and Steve who has helped me through problems in school as well as being good friends that have supported my decisions as a Chautauqua student.
