"Parting Comments"

My time at Chautauqua was a happy time.

Not only have I made new friends, but I also met three
great teachers and a principal that really seemed to care
about my education.

As these days have wound down, I am starting
to realize how much I am going to miss everybody in this
school. Even all the office people.

I have been here for three and a half years
and I never went to the High School. I got done quicker
and I bet I am just as smart, if not smarter, than any
senior at the High School.

Chautauqua is a great school and I hope when
I come back in ten years it will still be here.
