Sabra

Chautauqua High School is a very special and unique school. I am proud to say that I was a part of this school. Before I attended C.T. I was barely attending school, getting horrible grades, and not appreciating our educational system. When I began to attend C.T. I knew there was something special. First of all, there are no power trips here. You could call all of the staff by their first names. Second of all, it is a one on one educational program. The staff is all very considerate, and they all enjoy getting to know you. At most High Schools the staff is too worried about getting you out of there to even get to know you. But here it is different. They give you great advice and help you to become a healthier more aware person. My teacher Sabra is more like a friend than a teacher. She has helped me through hard times in my life. She has understood when something is not going right. She is a very special person that I will miss very much. She is like another Mother. Caryn is another special person that I also would like to thank for all her support, friendship, and encouragement. And the Principal, Steve, thanks for all the sense of humor, great clothes, and the kindness. Without C.T. I don't know where I would have ended up. But thanks to everyone that helped me out the door and out into the real world. You all have encouraged and inspired me to have a beautiful and wonderful life. Thanks!
