Jason Trammell

Chautauqua high school is the best school I have ever attended. This school has the one on one help that you don't get from regular schools. The staff here is amazing. Everyone is usually friendly and kind. If you need help, just ask. The staff here will be more than happy to assist you. I have been a Chautauqua student for four years now and it hasn't always been easy. I was the type of student that never showed up and I didn't really care what happened as long as I got to have fun, but it took the astounding patience of Doug Lane and Steve Schours to get me on the path to achieving my diploma. I don't know why, but they did everything they could to get me to school. Whether it was Doug calling my house to make sure I was coming, or Steve giving me labor hours so I remember to go to school. Either way they did it and I could never thank them enough for what they have done for me. Thanks to them, I will be the first male Trammell to have a high school diploma. It has meant the world to my parents to see me graduate and now finally will.

P.S. Thank you Chautauqua staff, for everything.
