When I first started high school I was attending Big Bear High School. I wasn't doing that great the beginning of freshman year, and only one teacher made an effort to help me get my grades up. During winter break I had a ski accident that caused me to go to C.T. When I came here the teachers and staff really helped me with anything I had trouble with. I had the choice to go back to BBHS but I felt that staying at C.T. would be the best decision for me. It has turned out to be the best decision I have made. Now I have been at C.T. for three years and it has been working great. Without my teacher Mike I don't think I would be doing as good as I am with my schoolwork. Not only does Mike teach his students everything that they need to know but even when he is sick he still goes in to school and teaches. While being here it seemed like time just flew by, I saw new people come and go and old people come back and finish up school. I have seen students wanting to drop out or even dropping out but they came back and finished it up thanks to the teachers and staff here. Being at C.T. was a great experience and I wouldn't change a part of it. C.T. is a great school and will always be, no matter what anyone says.
