I have been to many high schools, as far away as Ohio. I have been in trade schools and in normal high schools. But my short time at Chautauqua High School has been a memorable experience I will never forget. I have accomplished many goals, and made a lot of new friends. I fell behind in ninth grade and wasn't able to catch up until I came to Chautauqua. I finished a full school year in about half the time. I've had a lot of help from my parents, but my teacher Doug Lane is the reason I am graduating on time. Doug helped me through the subjects that I did not understand, and let me fly through the work that I was able to do. I John Temple attended and will be graduating from Chautauqua High School class of 07.

*John Temple*
