

Chautauqua High, Comments
by Julia Perron

When I decided to continue my education at Chautauqua High School I found many alternative ways to obtain my diploma. I participated in many activities such as: Government Group and Physical Education. Eighteen months later, having received awards in achievement and academics, I realized how much I appreciated Chautauqua. I commend our school for the personal attention the students receive. It wasn't as though I had limits here; I was inspired by everyone involved in the Chautauqua Experience. One of my favorite things about this school is the "first name basis." Steve, Howard, Sabra, Caryn, Mike, Julie, and Cass- Thank You for all you have done. I have loved becoming a part of the family we call Chautauqua.
