

I came to this school in the year 1994, when I was only 15 years old. When I first came to this school I was feeling sad, because I didn't have any friends, and I was not familiar with the teacher or students. After some time, I made two friends, Karina and Jose, and we stayed good friends for two years. I liked my teacher, Doug Lane, and I also had many Latin teachers who taught me English, and who helped me in all my work, but I needed to work very hard because I needed many credits to graduate. The time passed in my first semester, and I learned only 20 credits for the first year. It was very hard for me to learn English, because in my home all my family speaks Spanish. It is hard for me to learn English, but I need to learn more English for my future so that I could get a better job, and speak better when I talk to other people. It is my dream to make my future in this country forever, and I know I must learn the language.

I like this school. It is so different from the other schools, because this school has many rules which are good for all the students. Many students here have problems in life and home, and CT gives them so many ways to work in the class. I like it because the teacher teaches different work to each student. It is not the same work for everyone. Each person's work is a little different.

The most important thing for me is that I have done all of my work in this school, and that I am so happy because I am almost graduating. I worked very hard, but I feel good because my dream is about to come true. I'm so happy, because I will graduate in a couple of weeks. Thanks to Howard for helping me with all my work. I will never forget him!
