My comments on my past time at Chautauqua High School would include the following: First, I would like to say that I think that Chautauqua is an exceptional school. Many people you talk to that live up here think that this school is a group of kids that cannot function in normal life. This is the comment that a person makes who has absolutely no insight on the matter. When I finally arrived at the school I found that it was an atmosphere of mutual respect not only between students, but also between students and teachers. This is a school where they actually care about the person you are rather than how much information they can cram down your throat, not even knowing whether you understand it or not. The teachers at this school make sure that you are doing the work that you should be doing, and they make sure that you understand it. I know that they care a great deal about each and every student that walks in through the door. If they didn't, this school would not be what it is today. I am happy to say that I have attended this school, and have enjoyed all three and half years of it. I am going to miss each and every person that I have become close to at this school. I hope that the people that attend this school after me enjoy it as much as I have.
