

Chautauqua

My name is Nathan Lee Forrest and these are my comments about Chautauqua High School. I came to Chautauqua from Big Bear High School, after transferring from Sultana High School in Hesperia. So, I did a lot of traveling around. Once I got into Chautauqua, things for me changed... no more worrying about making new friends or moving. Chautauqua became a safe ground for me.

Chautauqua is the best school I've ever been to, and the only school I've been to that takes the time and effort to help make a difference in their students' lives. Everything is one-on-one, student to teacher. The teachers at Chautauqua take the time to work with individual students that are having trouble, either at school or at home.

My time at Chautauqua has been very rewarding. I've made friends and had good times. I've excelled in math, science, history, language arts, and many other things that I would have never excelled in if I hadn't had the support and help that I've had from Chautauqua. Chautauqua has been an inspiring school to go to, a school that you don't dread to go to every morning, a school where the teachers aren't your enemies but another one of your friends.

This is what my time at Chautauqua has been like, and I hope everyone at Chautauqua, and those people in the near future who get the privilege to learn at Chautauqua, feel the same way I do.

These are my written comments. Thank You Chautauqua.

Student,

Nathan Lee Forrest
