

Written CT Comments

I am now graduating from Chautauqua High School. I've been going here for three and one-half years, basically my whole high school career. Chautauqua High School is awesome! The size of CT is small, but believe me, the education you get is huge. This school is more than just a school; it's an opportunity for personal growth. When you're here you learn-you don't just sit in the back and hide. My teacher is Howard Antmann. In the past I've had favorite teachers, but none of them ever came close to Howard. Whenever I needed help he was always there. A lot of kids are afraid to ask questions, but not with Howard. He is the most giving person I know. He makes learning fun. When I'm at school I have a good time, and it's because Howard is my teacher. I really believe that Howard and I have bonded.

Mike Kompaniez is another teacher who has had a giant impact on me. Mike is my P.E teacher. He is one of those guys that pushes you to go as far as you can to be the best that you can be. He always has a smile on his face, and he never gives up. No matter what condition he's in, he'll be out there playing P.E. He's very dedicated.

CT is the best school for me and for anybody. If you want to learn in a place where people really do care about you and what you do, then CT is where you want to be. I've made so many friends at CT. What's really great about CT is that everybody knows everybody else, and It's an easy environment to make friends.

Finally, the entire staff is amazing. They're always extending a hand to help. I've been extremely lucky to attend CT. This school wants everyone to succeed. I love CT and everything it stands for.
